

Important Information

- ✓ Whilst we place great emphasis on safety throughout all our programmes, some of the activities we offer are hazardous by their nature and clients and their guests must accept a certain element of risk with these activities. Risk assessments for all activities can be provided when booked.
- ✓ Where clients use sub contractors on excursions to Rothiemurchus, copies of risk assessments, licenses, and liability insurance for said sub contractors must be provided.
- ✓ Clients and their guests must behave as requested by Rothiemurchus staff at all times. Clients and guests under the influence of alcohol or drugs or otherwise behaving in a way, which, in the view of Rothiemurchus Estate might threaten the enjoyment or safety of others, will be required to leave the premises.
- ✓ In the event of clients or their guests time keeping requiring cuts in the programme, the full charge will still be payable.
- ✓ Points in correspondence that contradict these terms take precedence.
- ✓ Rothiemurchus Estate strongly recommends that clients take out cancellation and curtailment insurance to cover this event. The Estate reserves the right to cancel the programme or parts of the programme due to events outwith its control or for safety reasons. In such event, a full refund relating to that proportion of the day will be made and no other claims will be accepted.
